This vibration insensitive lens is designed to be used with large line scan and area sensors under harsh industrial conditions. The V38-Mount fits to our modular Unifoc system with a large variety of accessories. Optimized for a specific magnification to achieve best results at close-up applications. Low chromatic aberrations plus low geometric errors provide high image quality.

Key features

- Modular system
- Low distortion
- Low chromatic aberrations
- Large image circle

Applications

- Web inspection
- Surface inspection
- Measurement systems
- Package sorting / logistic
