This F-Mount lens is for large formats. A V48-Mount for more flexibility on request. Optimized for longer distances up to infinity. The low field of curvature makes the lens the ideal choice where a compact lens inquires large field of view. These robust lenses are ideal for factory automation as well as for scanning applications.

#### Key features

- F-Mount
- 43.2 mm image circle
- optimized for long working distances

## Applications

- Quality control
- Code reader
- Web inspection
- Factory automation
